ADDENDUM NO. 1

FOR

SARATOGA VILLAGE PEDESTRIAN ENHANCENMENT PROJECT

FEDERAL PROJECT ID: CML-5332(013)

Attached is Addendum No. 1 which consists of:

- This cover sheet.
- Addendum No. 1.

Each bidder must acknowledge receipt of this Addendum by checking the appropriate space and signing on pages 62 & 63 of the Bid Proposal/Specifications booklet.

ADDENDUM #1

April 7, 2010

**SARATOGA VILLAGE PEDESTRIAN ENHANCENMENT PROJECT
FEDERAL PROJECT ID: CML-5332(013)**

Bid Opening Changes:

None

Other Changes:

1. The details for the Kiosk have been changed from the contract plans. The attached new Kiosk details will consist of a two post detail instead of the four post detail shown on the contract plans. There will be two Kiosks in the project located at 3rd street and Blaney Plaza. Bid item # 4 "KIOSK" on page 64 has already reflected the anticipated change. In addition the attached red marked sheet for the Rebar in footing will be called out as #5 as shown on right. Rebar placement will be corrected and spaced at 12" interval.
2. Item # 26 "Special Concrete Paving at Median" has been deleted. Replace page 65 from Contract Documents with the attached page 65.
3. Clarification: Item #41 Pedestrian STD. Grey Concrete Paving is a Medium Sandblast Finish not Medium Salt Finish. Replace page 65 from Contract Documents with the attached page 65.
4. Clarification: The Contractor will provide surveying and staking at no additional cost to the City.
5. Clarification: Detail 7 on plan sheet LA4.1 illustrates interlocking pavers on concrete at median. The layout legend on LA1.0 calls for 4" cobblestone 3170 stamped concrete. Detail 7 is obsolete and has been removed from project, follow call out on sheet LA1.0.

6. On (Detail 3/C-2) there is no bid item for concrete bands. The Concrete Band labeled in Detail 3/C-2 should be labeled like the 8' crosswalk in detail, labeled as 6" PCC pavement. This is analogous/similar to the 12" wide stamped concrete bordering the 8' stamped concrete Pattern Cobblestone shown in landscape sheets. The Specs covering stamped concrete are Site Concrete. Accounted for in Bid Item #38 'Vehicular Toned Stamped Concrete at Crosswalk'.
7. The Vehicular Stamped/Toned Concrete Paving At Crosswalk by Schofield product will not be used and instead the Bomanite Product will be used or approved equal. The attached Ashlar pattern from Bomanite with the stamped gaps at max. 1/2" wide shall be used or approved equal.

Phone: (303) 369-1115

Fax: (303) 291-0282

Email: info@bomanite.com

8. Clarification: Discard the "Option (A)" under the pot in Detail 1 on plan sheet LA4.2.

Questions may be directed to Macedonio Nunez at (408)-868-1218
(mnunez@saratoga.ca.us).
