

# FREDRICKSBURG DRIVE/GUAVA COURT PEDESTRIAN ACCESS

## Issues:

- Pedestrian access to trail may encourage non-resident user parking in neighborhoods
- Pedestrian crossing railroad tracks creates potential cross-railroad tracks safety hazard
- Pedestrian crossing provides inter-neighborhood elementary school linkage

## Potential Solutions:

- Close access points
- Leave access points open, add non-resident parking restrictions, provide abundant trailhead parking
- Formalize (pave) cross trail connection between neighborhoods to make crossing more visible
