

# COX AVENUE TRAILHEAD

## Issues:

- Potential trailhead could provide parking to discourage user parking in neighborhoods
- Potential trailhead could provide parking to off-set peak parking demand at Congress Springs Park
- Intergovernmental /Ownership of adjacent properties (Saratoga, Cox Reservoir & Fire District)
- Cox Avenue presents a design challenge in addressing potential hazardous trail crossing
- City Council previously stated there would be no trailhead at Cox Avenue

## Potential Solutions:

- Cooperative effort could promote Saratoga, Cox Reservoir and Fire District civic missions
- Potential trailhead could reduce trail user traffic crossing Cox Avenue
- Potential trailhead could be incorporated with Cox Avenue trail crossing safety improvements
- City Council could reconsider Cox Avenue trailhead if potential benefits warrant

Saratoga de Anza Trail
