

Note:
Based on city designation, some facilities do not include signage or adequate bike lane width.

Legend:

- Bicycle Paths (Class I Facilities) - See Existing Trail Easements
- Bicycle Lanes (Class II Facilities)
- Bicycle Routes (Class III Facilities)
- Expressway Segments (Bicycles Permitted)
- Proposed Bicycle Paths (Class I Facilities)
- Proposed Bicycle Lanes (Class II Facilities)
- Proposed Bicycle Routes (Class III Facilities)
- Bicycle Lanes/Routes (Class II/III Facilities)
- Across Barrier Connections

Note: Most sections of Saratoga-Los Gatos Rd. include bike lanes. On intermittent segments, current striping does not meet Caltrans standards for bike lanes and these sections are technically considered bike routes, even though the shoulder width provides sufficient room for bicyclists to travel.
