### Poem:

On a happy sunny day  
The seagulls fly up the bay  
The sky becomes empty and dark  
Lights go out, leaving a spark

When the darkness grows  
Hear the cawing of a crow  
The snow clouds come and fill the sky  
Away again, the little birds fly

### About the Poem:

I wrote this poem because winter is coming soon and the poem is about birds and winter. The birds migrate every winter and find a warmer place. And after winter is over, many new animals and plants come.
